San Bernadino, CA 92407

DIVISION OF
OIL, GAS & MINING

Dear Mr. Stober:

This letter acknowledges receipt of two Notices to conduct exploration operations on the unpatented mining claims in your Silver Gulch and Nip & Tuck project areas. The Notices have been reviewed for compliance with regulations found in 43 CFR 3809.1-3 and possible conflicts with cultural resources, threatened or endangered plants and animals, and land status. No conflicts with these resources were found and the Notices appear to be in compliance with Federal regulations. The Notices have been accepted under file numbers UTU-71723 for the Silver Gulch area and UTU-71724 for the Nip & Tuck area. Please use these numbers in all future correspondence with this office.

A copy of the information provided in your Notices has been forwarded to the Utah Division of Oil, Gas, and Mining (DOGM). Therefore, you will not be required to provide this information to them.

The operations described in your Notices are the only actions considered accepted by the Bureau of Land Management. Any changes in the amount or type of ground disturbance must be submitted to this office as an amendment 15 days prior to initiation. Operations will be inspected twice a year or every 6 months to insure compliance with the Notices and Federal and State regulations.

Surface Management Regulations (43 CFR 3809) require reclamation of all disturbed public land and that reasonable measures be taken to prevent unnecessary or undue degradation of the land. Included with this letter is a set of Reclamation Standards and Standard Operating Procedures to be used during operations and reclamation. Final reclamation must be approved by the BLM before the files will be closed. Any deviation from these

standards can necessitate a Notice of Noncompliance and bonding requirements for future work.

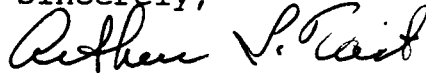

1000

1000

If your operations extend for more than a year, please advise us of the status of your mining activities on the anniversary of your Notices. New Notices or amendments will need to be submitted at that time. Acceptance of these Notices will not now, or in the future serve as a determination of the validity of any mining claim to which they may relate.

Thank you for submitting your Notices as it shows your willingness to prevent unnecessary disturbance of our public lands. If you have questions regarding your Notices please contact Gina Pack at this office.

Sincerely,

A handwritten signature in cursive script, appearing to read "Arthur L. Tait".

Amended Notice

UTV-71724

INFORMATION REQUIRED FOR A MINING OR EXPLORATION NOTICE

This form is designed to assist the claimant or operator in submitting the information required for a Mining or Exploration Notice. This form does not need to be used for submittal of a Notice, but all information required in 43 CFR 3809.1-3(c) must be included in any Notice submitted.

Claimant Information

Name: (1) Robert E. Stober (2) _____
 Address: 4436 No. 4th Ave. _____
SAN BERNARDINO, CA 92407 _____
 Telephone: (714) 883-5037 _____

Operator Information (If different than claimant)

Name: SAME AS ABOVE
 Address: _____
 Telephone: _____

Mining Claims Where Disturbance Will Occur

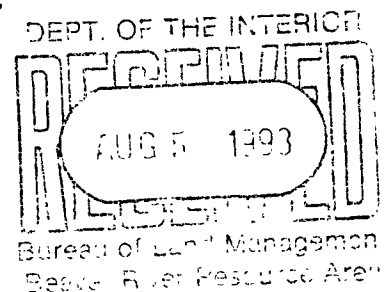

<u>Claim Name</u>	<u>UMC Serial #</u>	<u>Claim Type (Lode, Millsite)</u>
<u>Nip & Tuck 7-10</u>	<u>313364-313367</u>	<u>Lode MINING CLAIMS</u>

Activity/Mineral Type: Mining _____ Exploration FOR METALIFEROUS MINERALS

Location of Proposed Activity

Township	South, Range	West, Section	SW 1/4	NE 1/4
<u>29</u>	<u>9</u>	<u>4</u>	<u>SW 1/4</u>	<u>NE 1/4</u>
<u>29</u>	<u>9</u>	<u>4</u>	<u>SE 1/4</u>	<u>NW 1/4</u>

Please attach an accurate map of the area. Maps should be scaled to clearly show areas of proposed surface disturbance.

Proposed Operations

Estimated Dates of Operation:

Continuing From July 15, 1993

Describe the type of operations and how they will be conducted, including the location and size of areas where surface disturbance, structures, facilities, etc., are proposed. Calculate the total acreage of proposed disturbance (One acre = 43,560 sq. ft.):

No Surface Disturbance Proposed. Work will
consist of sampling, including bulk sampling
Above and below ground.

Access Routes

Describe any proposed improvement of existing roads:

Perpetual Maintenance of existing Roads. Use
of heavy equipment such as Rubber tired loader
or Dozer may be needed to maintain roads in
Adequate condition.

Describe new roads proposed (include location, length, width, estimated maximum cutbank height, and type of equipment used):

None.

Existing Disturbance

Describe any existing surface disturbance, structures, facilities, etc.. A map or sketch showing existing surface disturbance, structures, facilities, etc. is recommended.

Several shafts, tunnels and prospect pits.
ALL existing disturbances are old and do not exceed
10 acres in total area.

Proposed Reclamation

Describe proposed reclamation procedures or other measures to be taken to prevent unnecessary or undue degradation of public lands:

No Proposed Disturbance OR Reclamation.

Reclamation of all areas disturbed will be completed to the standards described in 43 CFR 3809.1-3(d) and reasonable measures will be taken to prevent unnecessary or undue degradation of Federal lands during operations.
